Experience Munich, Nuremberg, and Prague
Study Away May 2025

MTH1880 Math in Architecture and Art
3 credit hours

This trip to Germany and the Czech Republic allows students to experience the beauty of mathematics found in architecture and art, while learning about local cultures and walking through history. We will learn about the life of one of Europe's most eccentric kings as we visit the Bavarian Neuschwanstein Castle, explore the architecture and buildings created in Nuremberg after the old city was bombed at the end of World War II, and cruise along Prague's Vltava River to admire Charles Bridge, Kampa, Prague Castle, the Dancing Horse, and the National Theatre. This eight-day Munich, Nuremberg, and Prague travel-based course is designed to inspire empathy, sharpen competencies, and foster global citizenship.
