- Determine your estimated out-of-pocket cost using the formula described below or using the Out-of-Pocket Worksheet.

**HOW TO DETERMINE YOUR ESTIMATED OUT-OF-POCKET COST**

1. First, find your Total Direct Costs under the Cost of Attendance section at the top of your offer letter.
2. Next, subtract your scholarships and grants from your direct costs. This is your out-of-pocket cost before loans.
3. Last, subtract your loans from the number calculated in #2. This is your estimated out-of-pocket cost after loans.

Traditional undergraduate students can use our [Out-of-Pocket Worksheet](#) to assist with these calculations.

- Accept your offer letter.

I verify that I accept the award package and electronically sign my offer letter.
