This tutorial will demonstrate how to find the citations for articles in the ProQuest databases.
In the ProQuest results page, click on the title of the article you wish to cite.
Click on the link for “Cite” in the options near the top of the page.
A box will pop up that displays the citation for the article in APA, but using the drop down box and clicking on the “change” button, you can select the citation in MLA, Turabian, etc. Be sure to check that the citation is correct (for instance, in this example the link to the database is not the preferred information for an article retrieved from a database, check the APA guide for what is required).
Finally, if you have any questions, please ask us at the information desk. You can contact us whenever a reference librarian is on duty by phone 630-844-7534, text us at 630-796-7615, email: libref@aurora.edu, or chat with us online from the library’s homepage.
