This tutorial will demonstrate how to access the MLA and APA citation information for an item found in the library catalog.
Once you have searched in the catalog and found an item for which you want the citation information, click on the title of the item to go into the item record.
Select the CITE THIS Button
A box will pop up with the citation in APA and MLA formats. Use these only as guidelines, check that they are correct, and modify the citations as appropriate. You can copy and paste the citation into your list of sources.
