Registration opens at 6:00 a.m.:

- Monday 2/3 if you have completed 90+ credits
- Monday 2/10 if you have completed 60-89 credits
- Monday 2/17 if you have completed 30-59 credits
- Wednesday 2/19 if you completed 15-29 credits
- Wednesday 2/19 if you completed less than 15 credits

Students who have not completed 15 credits will be required to meet with their academic advisor prior to receiving online access to discuss their 4 year plan and prepare for online registration.

Your academic advisor is available to provide support during this process. However, you are responsible for registering for your classes online via WebAdvisor. This process allows you to register at your convenience and encourages student accountability.

In order to prioritize limited appointment times, please use the following examples as guidelines to receive support from your academic advisor:

**Email (from your AU email address) to Advisor:**

- Enroll in a course for which you will be completing the prerequisite at another institution (e.g. summer courses)
- Enroll in a course that will require approval of a general petition form
- Register for more than 17 hours in a semester (overload status)
- Register for music lessons
- Register for a class previously completed that you need to repeat

**Appointment with Advisor:**

- Review a proposed schedule for feedback
- Change/add a major (appointment would be with your new advisor)
- Change/add/remove a minor
- Discuss registering for an internship, independent study, or course by special arrangement (CBSA) process

Appointments with your advisor can be scheduled at any time throughout the year by contacting the Crouse Center for Student Success at 630-844-6870.

Registration for the 2014-2015 academic year begins in February. Students will be able to access WebAdvisor on their designated day to register online for the upcoming academic year. Please note if you have any holds on your student account (unpaid balance, missing immunization record), you will not be able to register until you resolve the hold with the appropriate department.

Registration dates are assigned based off the number of credits completed by the end of the Fall 2013 semester (the number of completed credit hours can be found on WebAdvisor within the program summary of your Academic Evaluation or at the end of your transcript).
Join your peers as they discuss the AU experiences that have helped them to “discover what matters.” Whether on the field or in the classroom, as a campus leader or community volunteer, these students have been transformed by their AU experience... and you can, too!

Learn from their discoveries... then go out and discover YOU!

Everyone has a story, a story with many chapters. Each chapter is a collection of tightly woven experiences that help shape who we are, what we do, how we feel about ourselves, what we value, how we treat others and how we choose to live. Our complex stories are not always easy to tell and it is even more difficult to figure out someone else’s story. We cannot possibly know all of the life experiences, the stories, of those we sit next to in class, or learn from, or work with on a daily basis.

Sometimes, we feel that we are the only ones experiencing life’s joys, difficulties, adventures...but we’re not. Everyone has gone through something that has changed their life, their heart and their destiny. Aurora University is a diverse place filled with amazing people. People with stories. Come experience a celebration of Aurora University’s diversity.

Attend “All You...Tales of Diversity” on February 25, 2014 at 7pm in Perry Theatre.
